

# TANK FOAMERS

200L, 130L, 70L Foam Applicators

Thanks to the integrated pump powered by compressed air, Tank Foamer units produce dense and well-aerated foam. The device uses pre-mixed chemicals from the tank. Ejects foam through the discharge hose and the fan nozzle. Providing a high degree of coverage of the foamed surface.

## FEATURES

- Powered by compressed air
- High-quality wheels
- Tanks certified for use in the food industry
- Large filler opening
- Long working time
- Foamer unit for ready to use chemical solution
- High-quality discharge hose
- Adjustable foam consistency (wet/dry)

# TANK SPRAYERS

200L, 130L, 70L Spray Applicators

Mobile industrial spray applicator units for applying premixed chemical solutions.

## FEATURES

- Battery or main power operated
- High-quality wheels
- Tanks certified for use in the food industry
- Large filler opening
- Long working time
- Sprayer unit for ready to use chemical solution
- High-quality discharge hose/wand
- On/off can be controlled at hose end
